

Grin and wear it

Your teeth are one of the first things that people notice about you, so why not give yours a makeover?

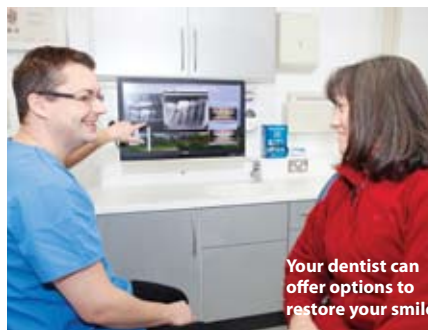

Are dental problems such as crooked or stained teeth leaving you with little to smile about? Perhaps you feel self-conscious, cover your mouth when you talk, or avoid having your photo taken at all costs?

It is possible to achieve amazing, noticeable results on a much tighter budget. Here are five ways to give your smile a brilliant makeover without breaking the bank:

1 Whiten your smile

Professional tooth-whitening is inexpensive in comparison to other cosmetic procedures but it can instantly brighten your smile. It is a

Your dentist can offer options to restore your smile

can instantly improve your smile. Metal fillings are most noticeable when we talk and laugh.

AN INMAN ALIGNER IS A REVOLUTIONARY PRODUCT THAT CAN STRAIGHTEN YOUR FRONT TEETH IN AS LITTLE AS SIX-16 WEEKS'

safe and painless procedure that can also make other dental flaws harder to see.

2 Adult orthodontics

Straight teeth make an impact. An Inman Aligner is a revolutionary product that straightens your front teeth in as little as six weeks, up to 16 weeks. Short treatment times make this a cheaper option than traditional or invisible orthodontics.

3 Tooth-coloured fillings

Asking your dentist to replace your existing amalgam fillings with tooth-coloured fillings

However, by using special tooth-coloured composite materials, your fillings will be almost invisible. White fillings can also restore chipped or eroded teeth in order to improve their appearance, rather than needing veneers and crowns, both of which are more expensive.

4 Same-day crowns

Using innovative Cerec technology, you can now have a crown designed, made and fitted in just one appointment. This reduces time taken off work and the number of injections required; perfect for those looking for a faster fix.

5 Implant-supported dentures

Dental implants can be a costly option, especially if you need to have several teeth replaced. Implant-supported dentures offer a practical, cosmetic and reasonably-priced solution. By using a small number of implants, it is possible to stabilise and retain dentures to create a beautiful, natural-looking smile.

Visiting the experts

Next time you are at the dentist, why not ask them about these five options. They are affordable and will give you the faith to smile with confidence! Ravenshead Dental Practice in Nottinghamshire is a state-of-the-art private dental clinic that offers a free initial consultation in addition to same day dentistry, quick orthodontics, mercury-free fillings, tooth whitening (which is free to practice members) and smile makeovers on a budget.
